Projects

Viaje de Encuentros | JavaScript, React, Bootstrap, HTML, CSS, Figma
- Developed a dynamic photo gallery using React and Bootstrap, showcasing my travels through South America
- Optimized performance by lazy loading 500+ images and enhanced user experience with Lightbox functionality
- Created responsive mockup in Figma, ensuring intuitive navigation and consistent visual design across devices

ExpTrak | JavaScript, React, Tailwind
- Built an expense tracker with React and local storage supporting CRUD operations to manage users expenses
- Designed a responsive UI with Tailwind CSS optimizing performance and accessibility across desktop and mobile devices
- Integrated Chart.js to provide real-time, interactive visualizations of spending patterns by category

Little Lemon Restaurant | JavaScript, React, Figma
- Built a restaurant booking system with React, utilizing Formik and Yup for robust form validation
- Created a client-focused restaurant prototype in Figma, aligning layout and branding with their needs
- Ensured functionality and reliability by writing tests with Jest and React Testing Library

Experience

Tech Specialist   **Dec 2024 - Present**
Apparo   Charlotte, NC
